License Key Errors

If you are having difficulty loading a license key, and see an error mentioning **GAC_MSIL** or **EDM.License.dll**:

Try going to C:\Windows\Microsoft.NET\assembly\GAC_MSIL\EDM.License and removing all of the subfolders underneath.

Then re-install **EDMTestingSetup.exe** and re-open EDM.

License Key location

Note: the license keys for the installer are located under:

`C:\ProgramData\Crystal Instruments\EDMLicense`
