- 1. First Connect your CoCo device by ethernet to your PC.
- 2. In VDS, click **Data Collector** > in the **Devices** menu, click **Load** > Click **CoCo**

device > Select the Device you are using > $Click \ Next > Click \ Load \ Factories and Routes > <math display="inline">Click \ Next$

3. Your VDS will have Factories and Routes to choose to upload to your CoCo device. Select options to upload > Click Upload > Click Finish

To Unload, follow the same steps from above after clicking **Unload** from the **Devices** menu.
