WATER SERVICE Conference Room Factory Test test1			Only in Database. Only in Database. Only in Database. Only in Database.	
	Select All	Deselect All	Inverse Selection	Synchronize Factories
Select which Factories Routes already on the Routes and data may o	CoCo will be u	pdated.	-	s.

- 1. First Connect your CoCo device by ethernet to your PC.
- 2. In VDS, click Data Collector > in the Devices menu, click Load > Click CoCo device > Select the Device you are using > Click Next > Click Load Factories and Routes > Click Next
- 3. Your VDS will have Factories and Routes to choose to upload to your CoCo device. Select options to upload > Click Upload > Click Finish

To Unload, follow the same steps from above after clicking **Unload** from the **Devices** menu.
